Dear Ms. McCord and Mr. Mitchell:

### REVISED RI/FS QUALITY ASSURANCE PROJECT PLAN [QAP(j)P]

This letter is to transmit to the revised RI/FS QAP(j)P for review as agreed to in the June 13, 1991, meeting in Chicago. The transmittal is to obtain review, comment and/or approval for changes required for RI/FS Technical and Program continuity, until the FMPC CERCLA Quality Assurance Program Plan can be completed. This review is necessary in order to ensure that data collected during the RI/FS Work will be completed within U. S. EPA guidelines. The revised RI/FS QAP(j)P will be followed until the FMPC CERCLA QAP(j)P is prepared and approved. This document is an upgrade to the QAP(j)P document approved in 1988 and does not conform to the recent U. S. EPA - Region V guidance. The site-wide CERCLA QAP(j)P will be completed as soon as possible and will follow the Region V guidance.

As requested, a redline version of the RI/FS QAP(j)P has been prepared by marking the right hand margin of the enclosed document. Also enclosed, is a prepared listing of RI/FS QAPP changes identifying the section and page of the changes included with the RI/FS QAPP.

Please provide copies of this document to the appropriate members of your staff. If possible we would like to discuss this document at the Quality Assurance meeting to be held in Chicago on June 27, 1991.

If you have any questions, please contact Oba Vincent at (513) 738-6937 or FTS 774-6937 or myself at (513) 738-6159 or FTS 774-6159.

Sincerely,

  
Jack R. Craig  
Fernald Remedial Action  
Project Manager
